Suncorp's Diversity & Inclusion strategy was founded on Gender Equality, and it remains embedded as a core focus for the Group. As a result, we have maintained gender balance across our total leadership population since December 2017. We continue to strive towards these targets for women, with the following results (as of 31 March 2023):

- Senior Leadership 47.4% women (+ 2.1 points over 12 months),
- Total Leadership 53.3% women (maintained over 12months).

Additionally, a gender lens is strongly applied to Suncorp's practices and policies across all stages of the employee life cycle. Including:

- A requirement to include at least one man and one woman on the shortlists of Senior Leader recruitment,
- The moderation and sign-off process of cyclical performance and talent reviews,
- The inclusion of gender equality metrics in scorecards of Suncorp's Executive Leadership Team (ELT) & Strategic Leaders (equivalent of all Key Management Personnel),
- Establishment of the Gender Pay Gap (GPG) Taskforce and GPG Education sessions to ensure people leaders understand the impact of people decisions on the GPG (E.g., remuneration, recruitment, promotion, and development),
- Continuation of targeted development programs to drive an ongoing pipeline of women in leadership. For example, the Career Resilience and Advanced Career Resilience programs targeted at high-potential leaders (inc. aspiring leaders). In the reporting period, 96 women participated in the program. Funding for the program has been increased, allowing capacity for 120 women to participate in FY23-FY24.

The principal activity of the subsidiary boards is to provide staff services to Suncorp Group Limited. In determining composition of each board, the Group seeks gender diversity wherever possible. However, given the nature of these entities, it has been determined that a dedicated target, and formal strategy for gender composition of these subsidiary entities is not appropriate.

The members of Suncorp's subsidiary governing bodies represent members of Suncorp's Key Management Personnel. As Suncorp employees, they are invited to participate in the monthly Loop engagement surveys which include voluntary questions on diversity and identity. While de-identified Loop data is shared internally & externally, this can only occur when a data visibility threshold of 5+ responses per segment is met (this is to preserve the anonymity of employees participating in the Loop).

Given Suncorp's subsidiary boards are often made-up of 3 members, it is not possible to share Loop data for the individual governing bodies. However, data for larger segments can be accessed (e.g., Suncorp's Senior Leader population).

Analysis on role pay equity variances and the gender pay gap is provided to our Sustainability & Diversity Committee (which is chaired by our Group CEO) at least twice a year (pre and post annual remuneration review) to provide insight and to recommend

Suncorp tracks employee sentiment towards diversity & inclusion issues, as well as representation of gender on an ongoing basis.

Additionally, as part of the ongoing program of work to reduce the Gender Pay Gap (GPG), we consult with functional leadership teams (inc. Finance & Derations, Risk, Insurance Claims & Operations, and Insurance Product & Portfolio) around their GPG data and key levers for change. In this reporting period, we established a GPG Taskforce with key leaders to help facilitate this discussion and drive activity.

Finally, we continue to leverage the passionate members in Employee Resource Groups (ERG) such as Women Connect and the Gender Inclusion Practitioners to further promote and build awareness of the importance of gender balance among our

- 7. If your organisation would like to provide additional information relating to flexible working and gender equality in your workplace, please do so below. In relation to the setting of targets for engagement in flexible work: Flexible Work has been a core aspect of Suncorp's culture for many years. Suncorp employees can access Informal and Formal Flexible Work Arrangements (the later alters employment conditions for a temporary period).

Suncorp's work arrangements vary a great deal across our workforce (e.g., contact center, branch, remote and corporate office settings), making the setting of targets for the engagement in flexible work challenging. However, we continue to encourage flexible working across the group. This is reflected in our Ways of Working portal for employees, which supports them to work effectively in an increasingly flexible work environment. Not only is guidance offered for work from the home or office, but resources are also available to encourage teams to collaborate effectively in fluid environments. Suncorp continues to monitor employee satisfaction regarding flexible working options via the Loop (Suncorp's monthly engagement survey platform). Pleasingly, 8.7/10 is the flexibility score provided in response to the question "my work schedule is flexible enough to allow me to manage work and other commitments". In addition to this, employee utilisation of flexible working options remains high.

In relation to Q.6 on hybrid teams: We recognise that a one-size-fits-all approach is not appropriate to support our workforce. To ensure a balanced and fair approach we have adopted the following principles to help determine where work can be performed virtually or at a Suncorp workplace:

- Where do our customers and community need us?
- Where does our team and stakeholders need us?
- Where do we do our best work?

Employees and leaders are encouraged to consider this on an ongoing basis to ensure the needs of team members, stakeholders and customers are balanced in a flexible environment including hybrid teams.

Additional Information relating to flexible working and gender equality at Suncorp: Suncorp recognises that flexible working is a key enabler of gender equality in the workplace, and as such, is committed to fostering a hybrid way of working for all employees. In support of this, Suncorp has a 'Ways of Working' portal for employees. The portal provides information on the principles of hybrid work, resources on working safely and effectively, details on flexible work arrangements and access to subsidised home office equipment (where eligible).

Suncorp also celebrates Flexible Working Day annually and uses this as a platform to share the experiences and benefits of flexible working across the Group. Flexible working is the norm at Suncorp, and as an organisation we are proud that the high rates of engagement in flexible working pre-pandemic (84%) have continued.

At Suncorp, employees engage in flexible work through formal and informal arrangements. Flexible Work Agreements (FWA) formalise a temporary change to an employee's working conditions (i.e., hours, days, or place of work etc.), while informal arrangements enable work from home on a wide scale. Utilisation of formal FWA's at Suncorp has increased overall since the last reporting period.

3. If your organisation would like to provide additional information relating to family and domestic violence affecting your workplace, please do so below

Suncorp recognises that domestic and family violence (DFV) continues to be a significant issue in society, one which impacts our employees, directly and indirectly, following the impacts of COVID-19 and current cost of living pressures.

All Australian and New Zealand employees experiencing domestic and family violence (DFV), or supporting someone experiencing domestic and family violence, can access 10 days paid DFV leave. This leave can be used for (but not limited to): medical appointments, treatment, and counselling, obtaining legal advice or attending court, and arranging alternative accommodation. Suncorp also has a range of other options to support the safety and security of our people, access to unpaid leave as required, changing work arrangements based on the circumstances of each individual and developing detailed safety plans for our employees. This could include an alternative work location or changing working hours or work-based contact details for employees leaving DFV situations and needing that added security.

Our DFV policy and guidelines provide information to employees about the support available to them if they are targets of, impacted by or domestic violence offenders. It also provides information to leaders in supporting employees and in managing the work impact.

A specific DFV data dashboard is reported upon quarterly to the Suncorp Diversity Council (chaired by the CEO), which allows us to track how many DFV leave days are used, gender split, what areas of the business have high leave requests and any trends that may require an intervention. Trends on DFV leave were particularly monitored in response to lockdown orders during the COVID-19 pandemic to determine if employees were put at risk through work-from- home situations. It is a priority that Suncorp employees always have access to safe and supportive work environments.

Leader resources on the Suncorp intranet cover topics such as how to identify signs of potential DFV abuse, how to have the conversation, leave and work arrangements, where they (and their employee) can access additional support, how to prepare a safety plan and a personal plan for the employee. In addition, we have run leader education training sessions on these sensitive people matters and specific workshops for DFV in same sex relationships for our LGBTQI employees.
