# VOTE+ Mobile voting

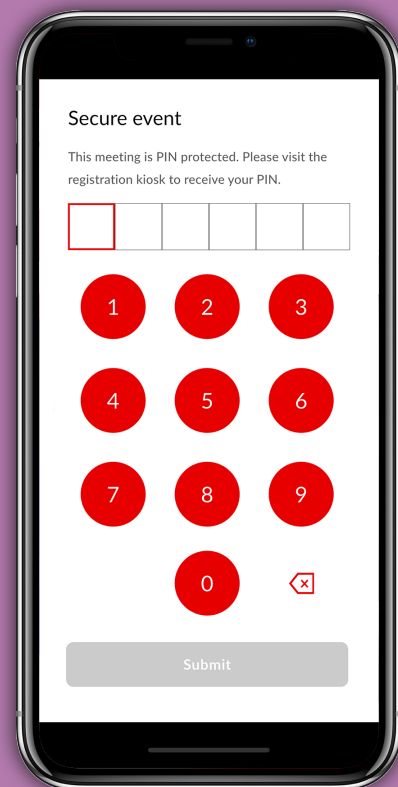

# The VOTE+ Mobile App

VOTE+ is MUFG Corporate Markets' mobile voting app which replaces paper voting cards at physical meetings.

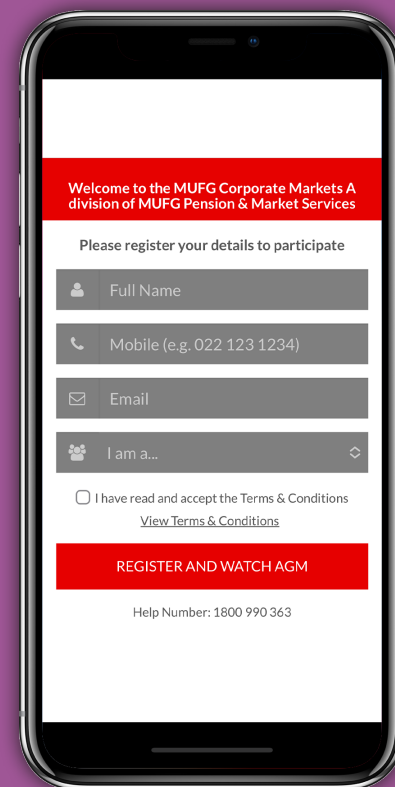

1

Prior to the meeting, download **VOTE+** from Google Play or the Apple App Store.

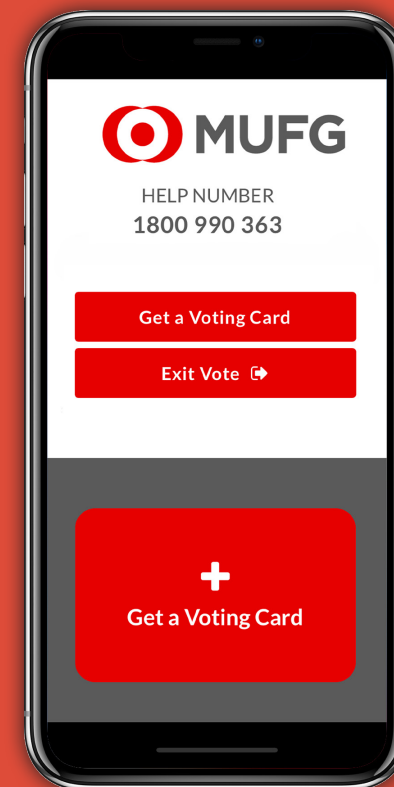

2

When you arrive at the meeting, locate the registration desk to obtain your six digit pin code and enter it in to the app. This will register the voting holder.

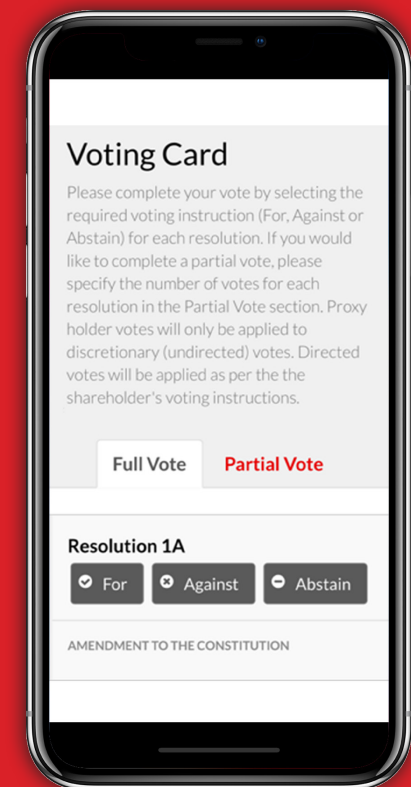

3

You will then be able to enter the meeting and register your full attendance details by validating yourself as a shareholder.

4

If you have additional holdings, choose 'Get Another Voting Card' and provide your HIN or SRN to access the additional holding.

5

Once registered, you can vote anytime during the meeting by completing the voting card and casting your vote.
