## Suncorp removes ATM fees

---

Suncorp will remove fees for all non-Suncorp customers so that no customer pays an ATM fee anywhere in Australia.

Suncorp Executive General Manager Deposits & Investments, Bruce Rush says the change will deliver greater value to all banking customers while increasing the availability of fee-free ATMs across the country.

“Suncorp supports fee-free ATMs and we will implement this change in early December to coincide with other positive changes, including updating technology and enhancing customer experience which is already planned for our ATM network,” Mr Rush said.

“It is great to see all Australians benefit and we are especially pleased for Suncorp customers who live in locations where there are limited options to withdraw cash.”
